

Welcome to Microcosmos Minerals

Your Source for rare vibrationally alive and visually beautiful mineral jewellery. This on-line Crystal Gallery is a cyber re-incarnation of a mineral collection known by the name Gematreya in the years leading up to Harmonic Convergence in 1987.

The tradition of ceremonial crystals & minerals attuned to sacred sites is kept alive with these special mineral specimens that can be worn as a form of shamanic medicine and/or accessed as gifts for your meditation, feng shui or your healing practice.

Each piece that you find here is unique and has a fascinating story to tell. We will be pleased to hear what you learn about the cosmos from your experience with one of these Microcosmos Minerals.
