

# The Tree-of-Light Elixirs

This set of elixir combinations were formulated by Joseph-Mark Cohen and developed in collaboration with Fred Rubinfeld, proprietor of Pegasus Products. Each of the following combinations will help a true seeker explore the individual spheres of the tree-of-life. The *s'pherot* can be conceived as the vessels through which the light of the Creator is emanated through humankind. These formulas were created by using a variety of ingredients that resonate with the energy thresholds and dimensional realms invoked by the kabbalist. They are tools for your experiential learning and vibrational awareness.

**The Tree-of-Light Elixirs** are unique formulations that blend the vibrations of plant & flower, gem & mineral, tree & essential oils, planet & star into one synergistic formula. The elixirs invoke the assistance and blessing of the guardian angels of the Tree-of-Life. The alcoholic content of these elixirs is quite high in order to hold the high frequencies of the star & galaxy vibrations. One only need take a few drops in a glass of pure water along with a moment of attunement and meditation to take in the healing vibrations of the Tree-of-Light elixirs. It may be useful to take one formula for a minimum of three days (maximum of one full lunar cycle) to experience the full effects of the elixir. You may also enjoy combining two or three of the elixirs at one time should you be guided to do so. *L'hayim*. Or should we say: *L'hay olam, to eternal life, to the universal life energy!*
